## SCOUT BALLISTIC HELMET

### A-SCOUT1

The SCOUT IIIA ballistic helmet is the first new product released by TACPROGEAR BLACK, an innovative line of American Made – Mission Specific gear. The SCOUT is a lightweight, multi-impact, UHMWPE helmet developed with high V50 ballistic performance without sacrificing safety and comfort. The SCOUT Ballistic Helmet offers optional Team Wendy® Padding and Retention Systems. The SCOUT also includes a 4 Position Accessory Rail and Shroud System manufactured for a lifetime of use and durability with many attachment points, and the donning and doffing of head borne accessories. Restricted to US Military, Law Enforcement, DoD and Security Personnel.
